

SWITCHED SERVICES NETWORKS USING CENTRAL OFFICE SWITCHING MACHINES GENERAL PROCEDURES AND RESPONSIBILITIES NETWORK NUMBERS AND OFFICE NUMBERS

1. GENERAL

- 1.01** This section lists the numbers assigned to the Switched Services Networks and SSN offices.
- 1.02** These numbers will be used in conjunction with data processing for Switched Services Network trouble reports and records.
- 1.03** Tables I, II and III will be updated by the Special Services Supervisor at 195 Broadway, New York, when networks and offices are added or changed.

2. ASSIGNED NUMBERS FOR SWITCHED SERVICES NETWORKS AND SWITCHED SERVICES NETWORK OFFICES

- 2.01** Table I lists the two-digit number assigned to each Switched Services Network, for use on Form E-5120 in blocks 4 and 5.
- 2.02** Table II lists the three-digit number assigned to all SSN offices for use on Form E-5120 in blocks 1-3 and 43-45. Each SSN office is assigned one number regardless of the number of networks it may serve. The number actually identifies the testboard involved and there may be cases where one testboard serves more than one switching machine.
- 2.03** Table III lists all SSN offices in numerical order.
